

# Abrasive mop NCS 600

# KLINGSPOR

Abrasive Technology

## Structure

Grain	Aluminium oxide
Bonding	Resin over resin
Backing	X-cloth, fleece

## Application:

Material	Stainless steel, metal, plastics
Machines	Hand-held machines
Form of delivery	Abrasive mop with spindle

## Available grit sizes

12		100	✓	400	
16		120		500	
24		150	✓	600	
30		180		800	
36		220		1000	
40		240	✓	1200	
50		280		1500	
60	✓	320		2000	
80		360			

Market segment	Stainless steel processing, mold construction, apparatus engineering, container construction
Product properties:	Abrasive mop with spindle with a combination of non-woven web and cloth for the finishing of profiled workpieces, inner surfaces, bottlenecks and hardly accessible areas
